

Computel Systems introduces Access Control and Temperature monitoring Terminal.

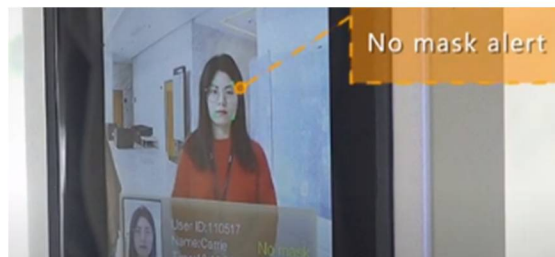

This is a stand alone device which sets up in minutes and monitors the fever as people enter.

- Temperature monitoring accuracy +/- 0.5 C
- Monitoring Distance 0.3m - 1.8m
- Temperature Monitoring Time 0.2s
- Sound Prompt: Abnormal temperature & no mask alarm. 1-Step Deployment –just plug-in

**Accurate temperature Monitoring
Forehead detection only; Head gear
need not be removed at all**

**“No Mask Detection with a
gentle Reminder”**

This is a fast deploying aesthetically modern looking system., with a long monitoring distance of upto 1.8 m. with High Passage Efficiency of 0.2s/person. Accurate Temperature Monitoring +/- 0.5 C
